

WHAT'S NEW IN THE WORLD OF VIRUSES OF MICROBES?

Each quarter, the International Society for Viruses of Microbes will share with its members the most relevant news and updates in the big world of tiny viruses of microbes.

IN THIS ISSUE:

- ISVM survey
- Viruses of Microbes (VoM) conferences
- iVoM webinars
- World Microbe Forum
- Africa Phage Forum

iVoM
2020
webinars

Thank you for attending iVoM!

The final iVoM webinar from March 4th 2021 about "Biotechnology applications in health care" with the presentations of Laurent Debarbieux, Krystyna Dabrowska and Tristan Ferry as well as previous iVoMs are available on the VoM2020 [YouTube channel](#).

Luís Melo and Ivone Martins from University of Minho, Portugal, wrote up a beautiful recap of the whole series [here](#).

Stay tuned for more news on future iVoM coming soon!

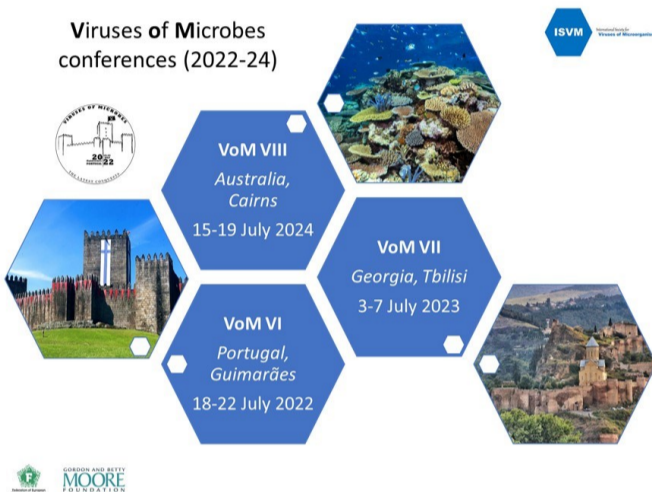

Thank you for completing our ISVM survey.

We now have **735** members!

Good things...
come to those who wait!

Find out about upcoming Viruses of Microbes conferences (2022-24) [here](#).

Viruses of Microbes conferences (2022-24)

Viruses of Microbes at World Microbe Forum 2021!

The startling achievements of 15 young and bright scientists from all over the world were presented at the biggest event ever in microbial science *World Microbe Forum!* Viruses of Microbes talks were streamed at two sessions:

- (i) [What's new in the world of viruses of microbes?](#)
& (ii) [How to take over and manipulate microbes: lessons Learned from Viruses.](#)

Check out the recorded talks [here](#).

Africa Phage Forum

The mission of the Africa Phage Forum is to provide a platform that encourages scholarship, collaboration and mentorship among researchers and for the advancement of phage research in Africa. For sponsorship and research opportunities please write to africaphageforum@gmail.com.

Check out the recordings of the Africa Phage Forum webinars [here](#). To find out more about Africa Phage Forum, click [here](#).
